WHEREAS, both Aclude Foundation and PiCA realize their Academic potential and strengths and agree to work on a common platform to their mutual benefit.

Both the parties agree to the following terms of association and understanding,

"Start Date" means the date on which this agreement is signed by both parties.

"End Date" means the final date agreed on which the project ends as agreed to by both parties WHICH IS ONE YEAR FROM THE START DATE.

#### a. BACKGROUND

An access audit is one of the first of many steps that can help to improve accessibility of the built environment. Everyone should be able to fully participate within society; it is envisaged that a set of guidelines will be of interest to all those involved in access auditing/designing & building the infrastructure like building surveyors, architects, building designers, facility managers, occupational therapists, building control officers, local access groups and all those who deal with the construction and use of buildings.

It is necessary for a student in Architecture to be sensitive towards Inclusive planning and train himself towards understanding the spatial needs of differently able persons. The practical knowledge of accessibility audit will definitely equip students for inclusive planning and benefit society at large.

## 2. SCOPE OF COOPERATION:

The Areas of cooperation will include:

This MOU will ensure co-ordination and participation of both parties for successful conduct of accessibility survey of various institutional buildings throughout Mumbai.

The above goals will be accomplished by undertaking the following activities:

1. PICA will send one Architectural student every month for ~~one~~ day duration to Aclude Foundation to facilitate and assist with accessibility awareness survey/ accessibility audit provided the student is willing to volunteer him/herself for the same.
2. The student will help in accessing and auditing the existing infrastructure of visited building and its conformance to accessibility or degree of accessibility in reference to (a)Ramps in buildings; (b)Adaptation of toilets for wheel chair users; (c)Braille symbols and auditory signals in elevators or lifts; (d) Primary health and medical care (e) availability of Sign Language Interpreters (f) Large prints or pictorial signages (g) Parking area compliance, etc.
3. Checklist Preparation and Design solution recommendation

## 3. EXCLUSIVITY CLAUSE

Both parties agree that their relationship is non-exclusive and that each party is free to pursue their business/academic interests with other companies/Institutes as they deem fit in their sole judgment, so long as any external business/academic relationships do not conflict with the terms and conditions of this agreement.

## 4. NON-COMPETE / NON HIRING CLAUSE

Both parties agree that they will not solicit, interfere with or endeavor to entice away customers, clients, partners and employees from the other party. Such clients, customers, partner or employee is defined as any company or individual which has signed a Non-Disclosure or/and a confidentiality Agreement, a Master-Services Agreement or the like, Statement of Work, or is generating revenue for the said

party. In addition, such customers, clients, employee, or partner may include any company listed in writing and tendered to the other party on a quarterly basis or specifically identified as a customer for whom Statement of Work is prepared or not. Both parties agree to abide by the Confidentiality clause with respect to such clients, customers, employee or partner. This clause shall be valid for a period of one year after the termination of the MOU.

## 5. FUNDING

The expenses for the survey activity to be borne by Aclude Foundation.

The other terms of this MOU shall be as under:

## 6. CONFIDENTIALITY:

- i. Definition. "Confidential Information" means any proprietary information, technical data, trade secrets or know-how, including, but not limited to, research, product plans, products, services, customers, customer lists, sale prospects, markets, software, developments, inventions, processes, formulas, technology, designs, drawings, engineering, hardware and software configuration information, marketing, finances or other business information disclosed by either of the parties whether in writing, orally or by drawings or inspection of parts or equipment. It also means such information belonging to the "Customers" or "Employees" of the parties hereto.
- ii. Non-Use and Non-Disclosure. Both the parties to this agreement will not, during or subsequent to the term of this Agreement, use the Confidential Information for any purpose whatsoever other than the performance of the services on behalf of the respective parties or disclose either party's Confidential Information to any third party. It is understood that said Confidential Information shall remain the sole property of the respective parties. Both the parties further agree to take all reasonable precautions to prevent any unauthorized disclosure of such Confidential Information including, but not limited to, having each employee (that covers faculty, student, affiliates) of the respective parties, if any, with access to

any Confidential Information, execute a nondisclosure agreement containing provisions in their respective favor identical to this Section of this Agreement. Confidential Information does not include information which (i) is known to either of the parties at the time of disclosure as evidenced by written records, (ii) has become publicly known and made generally available through no wrongful act of either of the parties, or (iii) has been rightfully received by either of them from a third party who is authorized to make such disclosure. Without the prior written approval of the party to whom the confidential information belongs, both the parties will not directly or indirectly disclose to anyone the existence of this Agreement or the fact that either party has this arrangement with the other.

- iii. Third Party Confidential Information. The parties recognize that they have received and in the future will receive from third parties their confidential or Proprietary information subject to a duty on either part to maintain the confidentiality of such information and to use it only for certain limited purposes. Both the parties to this agreement agree that they owe to the other and such third parties, during the term of this Agreement and thereafter, a duty to hold all such confidential or proprietary information in the strictest confidence and not to disclose it to any person, firm or corporation or to use it except as necessary in carrying out the Services consistent with the agreement with such third party.
- iv. Return of Materials. Upon the termination of this Agreement, or upon earlier request made by either of the parties to this agreement, the party to whom the request is made will deliver to the other all of the property or Confidential Information that it may have in possession or control and which belongs to the other and destroy all records thereof, electronic or otherwise, in any media or form (including on Internet or any Virtual Private Network), with it.
- v. Either Party may terminate this MOU at any time by giving written notification to the other Party on its intention to terminate this MOU, six (6) months prior to the date of the termination.

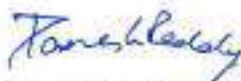

## 7. RIGHTS AND OBLIGATIONS OF EACH PARTNER:

### PiCA - Rights and Obligations

- i. PiCA agrees to make it's students aware of the social activities of Aclude Foundation.
- ii. PiCA agrees to send one Architecture student every month for one day duration to Aclude Foundation to facilitate and assist with accessibility awareness survey/ accessibility audit provided the student is willing to volunteer him/herself for the same.

# Accessibility Awareness

*action towards accessibility awareness for differently abled*

Danesh Kanagraj, founder president of Aclude foundation, working with and for differently abled people.

## Mr Danesh Kanangraj action towards accessibility awareness for differently abled

Need for sensitivity in design:

Mr Kangaraj , explained the problems faced by differently abled people in navigating city streets and Public transport. The bare minimum requirements for accessible streets for all is to have easy ramps for navigating level differences , in all the Public buildings as well as footpaths, train stations, bus Stops etc.

Danesh, is an Engineer by training and a motivational speaker by profession. He has spoken on various platforms like TED talk and is a recipient of Rajendra Prasad Leadership Award among many.

The focus of the talk was on making students a ware of the accessibility issues in Public places.

Mr Kangaraj explained about the Aclude Foundation. Aclude Foundation, a Navi Mumbai based- Not For Profit organization - an initiative that works with persons with disabilities in areas of build environment accessibility, employment, and inclusive training. Aclude is taking these baby steps to help those who are facing challenges at multiple levels. Foundation aims to bring at least a little improvement in the otherwise secluded lives of persons with disabilities.

### Event Highlights:

- Introduction of the speaker and the topic of the talk.

The speaker, Mr. Danesh Kanangraj, shared his personal experiences and insights into the challenges faced by differently abled individuals in navigating city streets and public transport.

- The speaker emphasized the need for sensitivity in design and the importance of accessible infrastructure for all.

He discussed the minimum requirements for accessible streets, such as easy ramps for navigating level differences, and the need for accessible public buildings, footpaths, train stations, and bus stops.

The speaker also mentioned his background as an engineer and a motivational speaker, and his recognition as a recipient of the Rajendra Prasad Leadership Award.

- The focus of the talk was on making students aware of accessibility issues in public places.

Mr. Kanangraj explained about the Aclude Foundation, a Navi Mumbai-based not-for-profit organization that works with persons with disabilities in areas of build environment accessibility, employment, and inclusive training.

Aclude is taking baby steps to help those who are facing challenges at multiple levels. The foundation aims to bring at least a little improvement in the otherwise secluded lives of persons with disabilities.

The purpose of the session is there is plenty of obvious moral reasons that accessibility matters but ultimately, people with disabilities should have the same rights as the wider population—and that includes their ability to engage with, learn from and communicate. When we take it upon ourselves to design for accessibility, we create more opportunities for disabled people to utilize accessible build environment and, at the same time, supporting diversity and inclusion.

What is Accessibility?

The basic meaning of the word accessibility is 'the ability to access'.

Students understood the fact that all structures are made not only for the convenience of the healthy but also for the disabled.

Eg- ramps which enable easy access to different level and can be accessed by the ones on wheelchairs too.

What is Access Audit?

In places where a building is made without consideration of differently abled people, a team of 6 people which include the architect, and other members with the most common disabilities, like the blind, the deaf, one's on wheelchairs, etc. They audit the building and see to it that everything is perfectly aligned/placed in a manner which is suitable for everyone.

Should anyone have any opinion on a certain area of the building, the architect is supposed to change or modify the built space so as to remove the constraint.

Pot holes, abrupt elevated drains, etc. Are common problems faced by the people.

What's needed from us?

Support by thinking of the differently abled while designing new structures.

Participation in access audits.

Gathering funds and volunteering activities.

The event was coordinated by Ar. Prof. Reshma Sathe, with the help of Anubhuti, the social service wing of PICA. The event was attended by about 200 students and faculty of PICA.

About 100 students enrolled for being volunteers for the upcoming Audits with Aclude.

## **Inclusive Social Awareness:**

Water is an existential requirement of a human being. Water also has its complex values when it comes to food, religion, culture, and the functioning of the environment and ecosystems. The World Water Day celebrates valuing of Water, and raises awareness of the global water crisis, and a core focus of the observance is to support the achievement of sustainable development goal 6: '*water and sanitation for all*' by 2030.

With overexploitation of available resources, it has resulted in the major depletion of the water resource and has started causing imbalance to the livelihoods of millions of people as well as other living organisms. So in context with the growing scarcity, the groundwater which contributes to regular domestic use can no longer be overlooked. The sustainable use of groundwater will be the means of survival and adapting to climate change and meeting the needs of a growing population. So one needs to consciously and strategically be wise on the usage of water and also put on thought of saving of water and restoration of the water table, in turn, regenerating the groundwater.

Rainwater is considered to be the purest form of water. Strategic use of techniques in order to channel the rainwater and recharge the groundwater has to be thought in a very crucial manner.

Anubhooti- MES Pillai College of Architecture's social service wing along with the SIBC came together and hosted a talk by Prof. Nandan Mungekar on the occasion of World Water Day on 22<sup>nd</sup> March 2022 to highlight the importance, safeguard, restoration, and the strategic techniques that could be adopted to use rainwater for the domestic purposes.

## **How was the day celebrated? -**

The event was graciously attended by Prof. Nandan Mungekar (Proprietor of Mungekar & Associates) and Dr. Sudnya Mahimkar ma'am, the principal of PICA. The event started with a general introduction to World Water Day, its relevance, and the importance of World Water Day. It was then, followed by felicitation by Dr. Sudnya Mahimkar to Prof. Nandan Mungekar.

Further Prof. Nandan Mungekar, who has received various awards with respect to Rain Water Harvesting as well as water management projects introduced us to the topic of Rain Water Harvesting, its relevance with respect to history, and how it has been contributing to the recharging of groundwater.

He also explained how to calculate the rainwater harvesting tank's capacity with respect to the average rainfall of the season and site area. It further proceeded with understanding the recharging of groundwater and some of the ideas that he had adopted in his projects. He further explained how to identify the location of the water sources with local strategies, for example, the use of coconut. He also showed the adaption of the dowsing technique that could be used for the identification of water sources.

## **Highlights:-**

The presentation by Prof. Nandan Mungekar covered an aspect of building service that is the rain water harvesting and its calculation which could be taken forward by the students of PICA in not only their academics but also in their professional life.

He also highlighted the importance of saving of water, safeguarding and restoration of water resources.

### **Attendance-**

The event was successfully attended by the chief guest, faculty members, staff, and the students of Pillai's College of Architecture.

## Memorandum of Understanding

Between

Pillai College of Architecture, New Panvel

And

Paradigm Shift Design Lab, Dombivli

Tuesday, 12 January 2021

Page 1 of 4

This MoU is entered on the 12<sup>th</sup> Day of January 2021 by and between;

**Paradigm Shift Design Lab** is an Architecture firm handling various types of architectural, interior, furniture and product design projects having its office at "Prathamesh" Devendra C.H.S., Near Manjunath tower, V. P. Road, Dombivli (E), Pin 421201. Under the enthusiastic and young leadership, Paradigm Shift Design Lab has successfully handled and completed varied projects.

And

**Pillai College of Architecture, New Panvel** established in the year 1992 recognized by CDA, DTE & affiliated to the University of Mumbai. The institute offers courses in Bachelor of Architecture, Masters of Architecture (Urban Design) and Ph.D. in Architecture. The address of college is Plot No.10, KM Vasudevan Campus, Sector 16, Panvel, Mumbai, Maharashtra 410206

**Pillai College of Architecture** is committed to the cause of imparting technical education through diverse teaching learning methodologies with the commitment to ensure exceptional industry standards to serve the society.

1. In pursuit to Memorandum of Understanding signed between **Paradigm Shift Design Lab**, and **Pillai College of Architecture**, this agreement is entered.
2. To detail areas of cooperation between the parties in areas of Entrepreneurship, Design guidance, start-ups.

**Paradigm Shift Design Lab** And **Pillai College of Architecture** have mutually discussed and agreed to enter into this agreement as detailed hereinafter.

Now therefore, in consideration of the mutual promises contained herein and other good and valuable consideration the receipt of which is hereby acknowledged, the parties agree as follows:

1. **Pillai College of Architecture** has invited **Paradigm Shift Design Lab** to participate under its multiple activities to promote Research, Innovation and Entrepreneurship and skill development for the benefit of students and growth of the institute.
2. Under the program, Ar. Shreya Ghatge, Principal Architect of **Paradigm Shift Design Lab** will guide and orient the students for Design and research process through guest lectures and workshops at institute.

Tuesday, 12 January 2021

3. Pillai College of Architecture will provide a platform to Paradigm Shift Design Lab to conduct expert lectures, presentations and various workshops for the students of the institute which will be mutually beneficial.

#### Limitation of Liability

Except as agreed and provided under this agreement, none of the Parties shall be liable to bear or pay any damages arising out of loss of income, loss of profit, special, incidental, indirect, punitive, exemplary or consequential, to any party including third parties, and all such damages are expressly disclaimed.

#### Key Deliverables

##### From Paradigm Shift Design Lab:

##### Lectures and Orientation Sessions:

One to two seminars / guest lectures/ Workshops on Design and research process/ Parametrics for students, First to Final year as applicable depending upon the design topics they are handling.

Informative, interactive and enlightening sessions for research, design, digital skills development, etc. shall be conducted by Paradigm Shift Design Lab as and when deemed necessary by the Institute.

##### From Institute:

- a) Organizing such guest lectures/ workshops at institute campus depending upon the requirements of syllabus for different semesters.
- b) Providing a platform to Paradigm Shift Design Lab to conduct interviews and offer placements to the students of the institute which will be mutually beneficial.
- c) To appoint interns/trainees from the interested students for specific project works as required by Paradigm Shift Design Lab.

This Agreement is prepared in two originals and each party shall retain one copy. Each copy shall be treated as original when taken separately and shall constitute as one when taken together.

In witness hereof, Paradigm Shift Design Lab And Pillai College of Architecture have executed those presently in manner hereinafter mentioned on the 12<sup>th</sup> Day of January 2021 at Pillai College of Architecture valid for a period of five years from the mentioned date.

### BIM - Parametric Workshop Report

Subject: Elective - BIM

Session: 2019 - 20

Year: 3rd

Date: 2<sup>nd</sup>,3<sup>rd</sup>,4<sup>th</sup> July 2019

Semester: 6<sup>th</sup>

Faculty

Subject coordinator: Akshay Agte, Yogita Patil

Workshop Conductor:

#### **Day 1 - 2<sup>nd</sup> January 2020**

The workshop commenced with the interactive discussion on what is Parametric designs and its applications. It proceeded to the understanding of how parametric design is important not only aesthetically but also is sustainable. This interaction was followed by an ice breaking exercise on making forms using Rhino where students explored and reflected their creativity while learning basic interface at the same time.

The activity was followed by the discussion on “how can this form be fabricated and built”. Later an interactive lecture on following two topics was taken.

#### **1. UNDERSTANDING THE CONCEPTS OF PARAMETRIC DESIGNS**

Basic understanding on what are parametric designs were given. This included discussion on how this is used in architecture by showing the students some live ongoing projects based on the same concept.

#### **2. BASIC INTERFACE OF RHINO**

Under this section, we introduced surface modelling software i.e. Rhino. It included introduction of interface, setting up grids, units, layers, terminologies, understanding different geometries of Rhino, modifying the geometries with mesh and control points.

#### **3. CREATING INDIVIDUAL FORMS**

Students were then given a hands-on experience on the software by taking an exercise of creating forms using rhino. The surface created by student incorporated different modelling techniques in rhino and can be either roof contour or any other architectural element. This session attempted to convey the overall and broader canvas of different kinds of techniques which can be used while designing a structure.

## **DAY 2 – 3<sup>rd</sup> January 2020**

The second day of the workshop aimed at opening up students in more interactive discussions and understand their responses on the previous day's sessions. It also conducted the individual discussions for resolving parametric and software related doubts at personal level.

### **1. INTRODUCTION TO GRASSHOPPER**

This session aimed at brain storming session on previous day's session and introduction of another plugin of Rhino i.e. Grasshopper. This included introduction to interface and unlike other software how grasshopper is different and how the power of algorithms can be used to create various permutation and combinations of design options using visual coding which is native with Rhino 3d. Student were then shown examples of projects like Heydar Aliyev Center by Zaha Hadid which used visual coding and various permutations using grasshopper.

### **2. LINKING RHINO AND GRASSHOPPER**

This session helped students understand the significance of grasshopper. Students were given an assignment where the form created by them was linked to grasshopper. After linking the forms to grasshopper, commands like contours where the surface were divided into smaller parts so that it can be worked on easily and later drawings can be extracted for fabrication.

### **3. VISUAL CODING**

The day concluded with creating a grasshopper script from which fabrication drawings of the created form can be extracted. It aimed at brainstorming session as students were able to visualize their form in detail and from all perspectives. This gave them a better understanding of their forms.

## DAY 3 – 4<sup>th</sup> January 2020

The third and final day of the workshop aimed at doubt solving on individual level. Student were exposed to different methodology and approach for the same output.

### **1. EXTRACTING DRAWINGS**

This section included an interactive session where students were asked to divide themselves in group of 6. From each group one design was selected for fabrication. This group assignment included teamwork where all the fabrication related drawings were to be extracted for the selected form.

### **2. FABRICATION**

In this session, students were encouraged to laser cut MDF or other material of their choice using the drawings extracted. Subsequently, students were asked to assemble the laser cut model in groups which can be later displayed for exhibition.

### 3. FABRICATED MODELS

## MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (MOU) sets for the terms and understanding between the INSTUCEN Trust and PiCA to facilitate participation of MES's Pillai College of Architecture in jointly conducted Accessibility awareness survey of public buildings.

THIS MEMORANDUM OF UNDERSTANDING executed at New Panvel, India on this the 05 April 2021, by and between:

1. The India Study Centre (INSTUCEN) is a public charitable trust committed to studying Indian culture, civilization, history, languages, art and architecture, archaeology; represented by Dr. Mugdha Karnik, and henceforth referred as INSTUCEN as the first party.

AND

2. MES's Pillai College of Architecture, New Panvel, an Institution imparting education at Undergraduate, Postgraduate and Doctoral levels at Pillai College of Architecture, Dr. K.M.Vasudevan Pillai Campus, Sector 16, New Panvel, Mumbai - 410206, Maharashtra, INDIA and represented by its Principal Dr. Sudnya Mahimkar and henceforth referred as PiCA as the second party.

WHEREAS, both INSTUCEN and PiCA realize their Academic potential and strengths and agree to work on a common platform to their mutual benefit.

Both the parties agree to the following terms of association and understanding.

## **1. BACKGROUND**

It is necessary for a student of Architecture to be well informed about the cultural and artistic traditions of India to fulfill their social roles as future architects. The students need to be well-versed in the ancient and recent history of art, architecture and archaeology for their all-round development. INSTUCEN Trust organizes many short term and long term courses delivered by experts in these areas. The students will benefit by the college's collaboration with such an institution; and similarly, its faculty can also contribute their expertise to the academic programmes of the trust.

## **2. RESPONSIBILITIES OF THE PARTIES INVOLVED**

### **The First Party will**

- Extend support to PiCA faculty, and students by providing them an access to the short term and long term courses and field visits organised by them.
- Enhance the academic programme of PiCA by offering guest lectures by expert speakers on art and architecture and archaeology at the premises of PiCA.

### **The Second Party will**

- Will support the activities organised by INSTUCEN by way of participation of their students and faculty members.
- Will support the academic programmes offered by INSTUCEN by offering expertise of their own faculty members in the areas identified by INSTUCEN.

## **3. EXCLUSIVITY CLAUSE**

Both parties agree that their relationship is non-exclusive and that each party is free to pursue their business/academic interests with other companies/Institutes as they deem fit in their sole judgment, so long as any external business/academic relationships do not conflict with the terms and conditions of this agreement.

#### 4. FUNDING

1. INSTUCEN Trust organizing the lectures/workshops at PiCA campus will be given an honorarium as per UGC standard, plus Travelling Allowance at mutual understanding between PiCA management and INSTUCEN.
2. PiCA students and faculty members attending INSTUCEN organized programmes will bear individual costs.
3. PiCA faculty offering lectures/workshops for INSTUCEN will be given an honorarium as per UGC standard or as mutual understanding between PiCA management and INSTUCEN.

#### 5. VALIDITY, REVIEW AND EXIT TERMS

This agreement shall remain valid for a period of Five years from the date of signing. The MOU can be extended further on mutual consent. The activities under the MOU will be reviewed once a year by senior members of both parties. Also, the agreement can be terminated on mutual consent any time before the validity period. However, such a termination should not result in problems for either party in any form.

<b>SITE VISIT TO THANE</b>		
<b>Subject: Landscape Design (Sem V, B. Arch), Environmental Studies (Sem IV, M. Arch Urban Design)</b>	<b>Session: 2022-23</b>	<b>Year: 3rd</b>
<b>Date : 22<sup>nd</sup> July 2022</b>	<b>Venue: THANE</b>

	<b>Accompanying faculty: Prof. Ajita Deodhar, Prof. Ashwini Bhosale, Prof. Khushpreet Bajwa, Prof. Snehal Ghag, Prof. Tushara K.</b>

A day's site visit was arranged for the students of 3<sup>rd</sup> year B. Arch and Final Year M. Arch Urban Design as a vertical collaboration of the two classes. The students visited Sanjay Gandhi National Park, Yeoor, Thane and Dattaji Salvi Udyaan (A Botanical Garden) at Thane on 2<sup>nd</sup> July 2022. This was first vertical collaboration visit of B. Arch and M. Arch along with being the first Landscape Site visit. Intention behind the visit was to improve students' observation, understanding, critical thinking skills in the field of Landscape and Environmental studies.

Aim of the site visit was to make students experience the natural landscapes and their impacts on the surroundings. The goal was to make students understand the conservation and an attempt of recreation of native plantation.

The site visit was accompanied by a field botany expert and a naturalist Seema Hardikar. There was also a guest lecture by Seema madam conducted on site.

The site visit was combined with the study of surrounding areas (e.g. Villages at Yeoor Hills and Bara Bangla area, Thane East was done by M. Arch students in order to understand the environmental impacts of these landscapes on the contextual surroundings and futuristic opportunities for the students to design its precinct.

Objective of visit:

- To help students understand the user's perspective, by witnessing the natural and designed native landscapes.
- To bring students in contact with the expert Seema Hardikar regarding plant study, vegetation mapping and environmental impacts of the same.
- To offer the perfect informal setup for discussion, dialogues and experiences which helps to explore their observation skills

## DAY 4

### 8:30 am-12:30 pm – MURAL WORKSHOP

The student council, Senate of Pillai College of Architecture had conducted a workshop on murals as part of the Kinesthesia event. The workshop began at 8:30 am and came to an end at 12:30 pm and was conducted by Prof.Kedar Shinde and Prof.Jayesh Patil. Around 50 students from the 1st, 2nd, 3<sup>rd</sup>, and 5th years of architecture were asked to carry out the activity. The students who participated were provided with all the necessary materials such as paints and brushes. Every year's participants had the liberty to decide the mural of their choice and execute it under the guidance of our faculties. The mural took a span of 2 days to get completed for all years.

The workshop began with a brief introduction of the expected outcome of the workshop and how the participants were supposed to go about it. In this workshop, the students got to know smarter ways and techniques to complete art works in a limited amount of time. The workshop finally concluded with overwhelming outcomes, at around 4 pm! The experience was very insightful for everyone.

When our world revolves around technology, it is important that we know to guard ourselves from its predators. Cyber security is a practice of defending computers, servers, mobile devices, electronic systems, networks and data from malicious attacks.

Women Development Cell (WDC) in collaboration with Institute's Council (IIC) and Bharat Vikas Parishad (BVP) had organized a seminar on Cyber security with guest speaker Mr Jitender Malik who is a Manager (management services, finance, HR) at Hindustan Organic Chemicals Ltd. (HOCL). Around 53 students along with faculty members attended the seminar and got enlightened about the threats that technology brings along with it. Members of Bharat Vikas Parishad Mr. Girish Samudra who is an Industrialist, Dr. Kirti Samudra who is a diabetologist and also in charge of Mahila and Bal Vikas Parishad, Commander Deepak Jambekar, Major Umakant Sharma also attended the seminar.

The session started with the tribute to our nation by singing Vande Matarm song sung by Mr. Girish Samudra and later with introduction of our guest speaker, who then presented and spoke about various types of cyber threats a system can cause and how it is spread through various gadgets using internet. He threw light on the relevance of cyber security with Architecture in which he highlighted points like how an intellectual property be protected, compliance of industrial standards, protection of personal information and what are the career opportunities if you chose cyber security as an education field. He also acknowledged about various techniques for preventing cyber threats. The presentation ended with a question answer session where students asked questions about mobile threats and some mobile banking threats.

The seminar concluded by a vote of thanks after which our guest speaker was felicitated with a token of appreciation for his guidance on an important aspect in the growing technological world.

Subject: Grant for developing floor plans and layout for proposed new incubation center.

Dear Madam,

I am pleased to inform you that LaunchpadX Foundation has decided to award the design project in architecture for the incubation center to your esteemed organization, Pillai College of Architecture. This letter serves as a formal sanction for the project.

The project entails providing architectural design, planning, and related services for the development of an incubation center, as per the specifications and requirements shared during the tendering process. The project is expected to commence on receipt of the funds and is estimated to be completed by April 15th 2023.

In accordance with the terms and conditions mutually agreed upon, Pillai College of Architecture shall provide the following services:

1. Architectural design and planning, including conceptualization, space planning, and development of design options.
2. Coordination with other consultants, contractors, and stakeholders to ensure smooth project execution.
3. Periodic site visits and progress reviews to monitor the quality and progress of work.
4. Any other services as may be required to complete the project successfully.

The total project cost is estimated at Rs 350000/- and will be paid after project is completed. No additional costs burden shall be borne by our organization.

Pillai College of Architecture shall maintain confidentiality and not disclose any proprietary or sensitive information related to the project or LaunchPadX to any third party without prior written consent.

LaunchPadX Foundation

### SITE VISIT REPORT FOR SEMESTER 4

<b>Subject :</b> Allied Design ( Interior Design)		<b>Session :</b> 2022-23		<b>Year :</b> Second	
<b>Course code:</b> BARC402		<b>Credits :</b>		<b>Semester :</b> IV	
				<b>No of Periods per week :</b> 4	
<b>Examination Scheme</b>		<b>Internal :</b> 100 <b>External :</b> 00		<b>Theory Paper :</b> 00	
				<b>Total Marks:</b> <b>100</b>	

<b>Faculty</b>	<b>Subject coordinator :</b> Prof. Sayalee Kulkarni		
<b>Faculty team:</b>			
Prof. Moushumi K.		Prof. Jayraj G.	
Prof. Khushpreet B.		Prof. Anand S.	
Prof. Bhagyasshree R.			

#### **AIM :**

The site visit was aimed to enable students to observe and understand practical aspects of Interior Design theories, planning aspects, etc.

#### **OBJECTIVES :**

- Analyzing the layout and spatial arrangement of rooms areas to optimize functionality.
- Examining various materials used for flooring, wall finishes, and other surfaces.
- Observing the lighting design and its effect on the mood and atmosphere of the space.
- Recognizing the significance of ergonomic design and its contribution to user comfort.

As part of the Interior Design curriculum, students visited ongoing sites in groups of 6, to

understand the practical aspects of the subject. The site in consideration, Mohan Altezza is a high-rise residential building located in Kalyan. Ar. Yogesh Patil's project involves designing the interior spaces of one of the apartments in the building. During the site visit, Ar. Yogesh Patil elaborated on the various planning aspects of the project. He discussed the importance of space optimization and how it relates to the functionality and aesthetics of each room. The students gained insights into the principles of circulation, lighting, and ventilation that were integrated into the design. The students were given a detailed explanation of the chosen material palette for different spaces. Ar. Yogesh Patil emphasized the significance of material selection in achieving the desired ambiance and how it aligns with the design theme. The use of natural textures, modern finishes, and complementary colors were discussed to create a cohesive and visually pleasing environment. One of the highlights of the site visit was the opportunity for students to observe the ongoing carpentry work. Ar. Yogesh Patil explained the intricacies of crafting custom furniture pieces to suit the design requirements. He discussed the importance of precision and attention to detail in ensuring the quality and durability of the furniture. The guidance provided by Ar. Yogesh Patil allowed the students to gain valuable insights into the complexities of executing an interior design project.

**Outcome:** The students could witness firsthand implementation of interior design theories in a real-world setting. It is expected that the students apply the knowledge gained in the academic project in the semester.

## M.Arch : Design Studio : Sem III

Pillai's College of Architecture + Rizvi College of Architecture.

Location : Nashik

Duration : December 2018 – April 2019

*'Novelties attract us, only when they are dead and incapable of arousing vital current'*

In the times we live in, the city means a lot more than what a conventional definitions/meanings that a dictionary can offer us. It has become an **idea for inhabitation** which has seen no precedent in the history for what it stands for today.

Today, a city is a model of our evolution, of a kind of complexity of various forces merging with one another for the sustainability of the either. It has become an embodiment of survival and an achieve of events, but on another level, it is also a physical laboratory, a place for experiments and a testing ground for new ideas.

Hence to initiate these experiments and to explore our future, it becomes imperative for us to **critically observe the city** for what it is and hear what it has to say.

Events related to **evolution of urbanity** and **stake holding in the physical form of the city** is an interesting dynamic one has to observe while engaging with the city. This inter-dependency is constantly influencing the urban form, especially in tier-II cities like Nashik .

Inclusion of the public realm plays a pivotal role in behavioral organization of the city .The physical-functional existence and the notional meanings of such public spaces offer the most potent catalyst for the evolution of the urban fabric.

A case of Nasik; where a river acts as a geographic/topographic separation, but simultaneously offers a wonderful socio-cultural bridge, presents the unique opportunity in the form of right and left canals to explore alternative narratives for public domain in the city.

The Gangapur dam situated to the western edge of the city of the Nashik has always been one of the primary sources of water from the days when Nasik was a small agrarian town thru the 1970 when industrial developments offered a different direction to the growth of Nashik.

The right (south) and left (north) canals were the overflow mechanisms for the dam and proved pivotal irrigation system for the agrarian community in the region. The canals were ingrained in the socio-cultural framework and physical form of the then agrarian society. These two canals, running continuous and almost parallel to river Godavari, cross the city offering a secondary spine structure to Nashik.

The development of Satpur-Ambad industrial belt exerted different developmental pressures on the area surrounding the right canal. Once a lifeline of the agrarian system, the right canal outlived its purpose shortly in the growing densities and mutating land use patterns and posed itself as a liability.

*"What pleased the eyes for so many years is gone."*

*Urban forces, would soon invade this cultural territory, and become a repository of the out-moded and the historically superseded. And this metaphor of water, would vanish.*

Over the years the stake holders of these canals change from the irrigation department to local municipality to forest department, sometimes keeping the final accountability in a grey zone.

The right canal has been reclaimed for most of its length and contains a subterranean arterial structure of pipelines where as the ground plane hosts irregular patches of green public spaces, empty land parcels, vehicular roads and wherever ownership is not stated; informal/illegal housing has consumed the most part of it.

This can be observed as a crucial event in the life of a city. Potentially, it has long lasting implications by means of offering multiple opportunities for its integration into deeper tissue of the urban settlement.

The physical continuity of this reclaimed land in public domain, running through the city presents a unique opportunity to re-interpret the existing narrative (socio-cultural and economic ) of once relevant irrigation canals and to investigate the role this continuous stretch of public land can play in exploring future identities for Nashik.

This studio aims at identifying different urban design strategies for the city to 'claim' this reclaimed land in the public domain and utilize their inherent characters for the seamless engagement of the society and the infrastructure in Nashik. Also it will be important to treat this enquiry as a testing ground for these strategies to be demonstrated in the form of design proposals at macro and micro scales at crucial nodes/stretches.

5 such nodes/stretches are identified which offer diversity in the form of socio-cultural context, immediate economic dynamic, land use, edge conditions, infrastructural framework, demographic data and potential for future growth.

Stage 1: To observe, analyze and document the length of right canal from the west to east edge of the city

Stage 2: To propose a grand vision for the integration of this reclaimed land into physical and notional future of the city.

Stage 3: To demonstrate in detail the bespoke manifestation of the grand vision onto identified nodes/stretches in order to create larger identity.

Node 1: canal Road- Off pipeline road.

Node 2: Krushinagar to Emerald Park

Node 3: Emerald Park to Nasardi crossing

Node 4: Indira nagar Highway underpass

Node : Wadala Road Junction near Ashoka Hospital

# PILLAI COLLEGE OF ARCHITECTURE

## Masters in Architecture (Urban Design)

### Urban Design Studio II

---

#### Introduction

*'Novelties attract us, only when they are dead and incapable of arousing vital current'*

In the times we live in, the city means a lot more than what a conventional definitions/meanings that a dictionary can offer us. It has become an **idea for inhabitation** which has seen no precedent in the history for what it stands for today.

Today, a city is a model of our evolution, of a kind of complexity of various forces merging with one another for the sustainability of the either. It has become an embodiment of survival and an achievement of events, but on another level, it is also a physical laboratory, a place for experiments and a testing ground for new ideas.

Hence to initiate these experiments and to explore our future, it becomes imperative for us to **critically observe the city** for what it is and hear what it has to say.

Events related to **evolution of urbanity** and **stake holding in the physical form of the city** is an interesting dynamic one has to observe while engaging with the city. This inter-dependency is constantly influencing the urban form, especially in tier-II cities like Nashik.

Inclusion of the public realm plays a pivotal role in behavioral organization of the city .The physical-functional existence and the notional meanings of such public spaces offer the most potent catalyst for the evolution of the urban fabric.

A case of Nasik; where a river acts as a geographic/topographic separation, but simultaneously offers a wonderful socio-cultural bridge, presents the unique opportunity in the form of right and left canals to explore alternative narratives for public domain in the city.

The Gangapur dam situated to the western edge of the city of the Nashik has always been one of the primary sources of water from the days when Nasik was a small agrarian town thru the 1970 when industrial developments offered a different direction to the growth of Nashik.

The right (south) and left (north) canals were the overflow mechanisms for the dam and proved pivotal irrigation system for the agrarian community in the region. The canals were ingrained in the socio-cultural framework and physical form of the then agrarian society. These two canals, running continuous and almost parallel to river Godavari, cross the city offering a secondary spine structure to Nashik.

The development of Satpur-Ambad industrial belt exerted different developmental pressures on the area surrounding the right canal. Once a lifeline of the agrarian system, the right canal outlived its purpose shortly in the growing densities and mutating land use patterns and posed itself as a liability.

*'What pleased the eyes for so many years is gone.'*

*Urban forces, would soon invade this cultural territory, and become a repository of the outmoded and the historically superseded. And this metaphor of water, would vanish.*

Over the years the stakeholders of these canals change from the irrigation department to local municipality to forest department, sometimes keeping the final accountability in a grey zone.

The right canal has been reclaimed for most of its length and contains a subterranean arterial structure of pipelines whereas the ground plane hosts irregular patches of green public spaces, empty land parcels, vehicular roads and wherever ownership is not stated; informal/illegal housing has consumed the most part of it.

This can be observed as a crucial event in the life of a city. Potentially, it has long lasting implications by means of offering multiple opportunities for its integration into deeper tissue of the urban settlement.

The physical continuity of this reclaimed land in public domain, running through the city presents a unique opportunity to re-interpret the existing narrative (socio-cultural and economic ) of once relevant irrigation canals and to investigate the role this continuous stretch of public land can play in exploring future identities for Nashik.

## Studio Intent

This studio aims at identifying different urban design strategies for the city to 'claim' this reclaimed land in the public domain and utilize their inherent characters for the seamless engagement of the society and the infrastructure in Nashik. Also it will be important to treat this enquiry as a testing ground for these strategies to be demonstrated in the form of design proposals at macro and micro scales at crucial nodes/stretches.

5 such nodes/stretches are identified which offer diversity in the form of socio-cultural context, immediate economic dynamic, land use, edge conditions, infrastructural framework, demographic data and potential for future growth.

Stage 1: To observe, analyze and document the length of right canal from the west to east edge of the city

Stage 2: To propose a grand vision for the integration of this reclaimed land into physical and notional future of the city.

Stage 3: To demonstrate in detail the bespoke manifestation of the grand vision onto identified nodes/stretches in order to create larger identity.

Node 1: Canal Road- Off pipeline road.

Node 2: Krushinagar to Emerald Park

Node 3: Emerald Park to Nasardi crossing

Node 4: Indira nagar Highway underpass

Node 5: Wadala Road Junction near Ashoka Hospital

*(Note: The above brief has been formulated by Archis Kulkarni and members of Team Nashik)*

## Collaboration Teams

---

The Studio has been undertaken in collaboration with diverse teams from practice and academia.

### Team Nashik:

Archis Kulkarni (Coordinator)  
Rahul Dabir  
Shantanu Autade  
Rohit Fegde  
Raunak Dodhecha  
Hemant Pawar

### Team Pica:

Richa Sharma (Coordinator)  
Madhavi Patil

# Outstation Work- Overview

Date	Plan of Action	Outcomes
8 December 2018	<p>10:30 am- Team Pica and Rizvi arrives in Nashik</p> <p>Introduction to the Nashik and the Studio</p> <p>- Presentation by Team Nashik</p>	<p>- Students were able to understand the forces that led to the shaping of the city through a comprehensive presentation on its evolution</p>
		
		
Tea Break		

Understanding of Nashik from secondary sources  
- Presentation by Team Pica and Rizvi

Students were able to verify their secondary data and identify gaps in their study.

Lunch Break

Pilot tour of the probable sites along the canal

Students were able to witness the current scenario along the right canal and explore the contextual circumstances that led to its state.

Tea Break

Discussion on site observations, understanding and critical questions

Students were able to verify their understanding and clarify their doubts

Dinner

9 December 2018

A walk into the core city  
An exhaustive session of elaborate explanation of the core city by Architect Rahul Dabir

Students were able to understand:  
- The evolution of the city and the determinants of form and space  
- The association of the City with the River

#### Brunch Break

Understanding the city in various segments through primary surveys  
 - Segment allocation in mixed group of students from Pica and Rizvi

- Students were able to draw an image of the overall city by collective understanding of smaller segments

#### Tea Break

Groupwise discussion of the experience, observation, understanding and perceived image of the allotted segments in relation to Nashik  
 Allotting site documentation work in terms of 5 broad aspects:  
 Ecology, Infrastructure, Built form and Density, Economy and Public Realm

- Students were able to put together the different aspects that constitute to the image of the city and clarifying the misconception of Nashik bearing only a religious image.

7:00 pm- Team Pica and Rizvi departs for Mumbai

13 December 2018

7:30 pm- Members of Team Pica (Madhavi Patil, Sanghamitra Barthakur and Nishant Modi) arrives in Nashik

14 December 2018

Engaging with students in allotted groups to assimilate and collate primary data collected from the site.

- Students were able to organise the site information and construct a framework of approach for each aspect

Lunch Break

Visit to the Left Canal by Team Pica

- To be able to understand and acknowledge the environ that exist and draw references of similar context that might have existed along the right canal
- To be able to visualise the phases of transformation of the right canal

Tea Break

Discussion with students in terms of appropriate representation techniques and structure of presentation

Students were exposed to different methods that can be used for urban design representation based on collected data.

Dinner

15 December 2018

Preparation for the final presentation

Lunch Break

Compilation of the data by students of Pica and Rizvi for the final presentation

Group wise presentation on all the five aspects by students of Pica and Rizvi

Students were able to enlist the components of each aspect relevant to the city of Nashik.

Dinner

16 December  
2018

An esquisse exercise designed by Team Nashik for a prompt response towards the overall contextual understanding and a conceptual ideation of the envisioned project.

- Three teams were formed where each team consisted of one member from every aspect
- Students of Pica formed two groups having five students in each and students of Rizvi formed one group of four students

Students were able to culminate the seven day on site study into preliminary design ideas so as to trigger discussion and debate and henceforth gives a way ahead.

The formation of groups with a member from each aspect would allow students to have a holistic approach and a premise for better acknowledgement and integration of the context.

Lunch

Presentation of the three groups

The presentation of the teams focused on the opportunities that the canal can offer with respect to the needs of the city. The presentation of teams concluded by arriving at the two themes namely, Ecology and Identity.

विषय : अभ्यासमंडळावरील नामनिर्देशनाबाबत.

महोदय,

आपणांस कळविण्यात येते की, अधिष्ठाता मंडळाच्या दिनांक २७ मे, २०१९ रोजी झालेल्या सभेमधील बाब क्र. ३ च्या ठरावानुसार मा.कुलगुरूंनी अधिष्ठात्यांशी विचार विनिमय करून, आर्किटेक्चर (Architecture) तदर्थ अभ्यास मंडळावर आपले नामनिर्देशन केले आहे. सदर अभ्यास मंडळावर झालेल्या नामनिर्देशनाबद्दल, विद्यापीठ प्रशासनातर्फे, हार्दिक अभिनंदन.

आर्किटेक्चर (Architecture) तदर्थ अभ्यास मंडळाच्या आपल्या सदस्यत्वाची मुदत तात्काळ प्रभावाने सुरू होऊन दिनांक ३१ ऑगस्ट, २०२२ पर्यंत महाराष्ट्र सार्वजनिक विद्यापीठ अधिनियम, २०१६ मधील कलम ६३, ६४ आणि ६८ मधील तरतुदींच्या अधिन राहून असेल.

अभ्यास मंडळ हे महत्वाचे प्राधिकरण असल्याने, त्यात आपल्या सक्रीय सहभागाची, सहकार्याची आणि मार्गदर्शनाची अपेक्षा व्यक्त करतो.

महाराष्ट्र सार्वजनिक विद्यापीठ अधिनियम, २०१६ मधील कलम ६२, ६३, ६४ आणि ६८ या छायांकित प्रती सोबत जोडत आहोत.

कृपया हे पत्र मिळाल्याची पोच द्यावी.

आपला स्नेहांकित,

## MANDATORY STANDARD PROVISIONS

### A. PURPOSE OF THE PROJECT

1. Mahatma Education Society (MES)'s Urban Expansion Observatory (UXO) would be working with IRT on the "**Road Network Analysis in 20 Cities**" project. The scope of work is as follows:
  - a) The project involves MES to collect and collate road network related spatial layers from open source datasets like OSM for cities across India.
  - b) MES is expected to curate, edit, and refine the data as per the guidelines provided by IRT where in roads are categorized based on road width and directions.
  - c) The study area would be 20 major cities across India that have been chosen by IRT. The boundary of each city for which the analysis is defined by the size of the urban area. For large urban areas, aerial buffer of 50 km from the centre of the city would be used as the boundary and it would be 30 and 20 kms for medium and small size cities.
  - d) MES has to create information on nodes and road network data that are suitable for traffic analysis as well as road infrastructure analysis. These include information on unique ids for roads, nodes, the traffic directions, and road widths.
  - e) Based on a set of indicators developed by IRT, MES is expected to analyse the road infrastructure in the cities using the network and node database that was developed. The number and definitions of the mentioned indicators provided during the initial conversations are subject to change during the course of the project. These indicators would reflect the quality of node – segment – block arrangements in the urban areas.
  - f) MES is expected to perform traffic analysis using the developed data and traffic data from Google Maps API. The results expected from the analysis include the speed of movement for vehicles along each road segment.
  - g) The data created and the analytics performed by MES as part of the project should be delivered to IRT.
2. Any modifications to the activities or timing of the project set forth in section A.1 above requires the prior written approval of IRT.
3. The funds provided for this project will be used in accordance with the project budget set forth as Attachment 3. Deviations from budgeted expenditures shall be handled in accordance with the provisions of section D.4 below.
4. The funds provided for the project will be used solely for the purposes and activities described above and shall be solely for charitable and educational activities consistent with IRT's status as an organization exempt from income tax under Section 12(1) of the Income Tax Act ("IT Act").
5. Subrecipient will not use any portion of the funds provided for the project to engage in any activity considered to be direct or grass roots lobbying.

6. Subrecipient will not directly or indirectly use any portion of the funds provided for the project to participate in or intervene in (including the publishing or distributing of statements), any political campaign on behalf of or in opposition to any candidate for public office or to provide a selective benefit to any political party or candidate.
7. All of Subrecipient's actions with respect to this grant will be consistent with all applicable laws, statutes, rules, regulations and orders to which Subrecipient or IRT is subject.
8. Data created to support this project as described in Section A of Attachment 1 of this agreement will be made available in accordance with IRT's Open Data Commitment, except where expressly prohibited.
9. MES personnel associated with this project will receive due credit proportionate to their contribution in all publications (books, conference and journal articles, technical and project reports etc) arising out of this subgrant.

Each of the parties recognizes that the results of the Project may be publishable and the MES's, and WRI-INDIA s researchers engaged in the project may be permitted to present their work at any symposia and national and regional professional meetings and publish in journals, theses or dissertations or other publications, the methods and results of the project with prior approval of both parties.

**B. PERIOD OF PROJECT**

Unless sooner terminated as provided herein, this subagreement is effective on 1<sup>st</sup> August 2020 and will expire on 31<sup>st</sup> January 2021.

**C. AMOUNT AWARDED AND PAYMENTS**

1. IRT hereby grants INR 350,000 for the purposes outlined in paragraph A of this subagreement, subject to the terms of this subagreement.
2. Payments may be made according to the approved budget but may be delayed or withheld for failure to deliver required progress and financial reports or for failure to comply with the other terms of this subagreement.
  - a. Total advances shall not exceed 90 percent of the approved budget.
  - b. Individual payments shall not exceed immediate funds necessary to facilitate the requirements of the program per quarter.
  - c. The final payment will be released upon receipt and acceptance by IRT of all reports required by section E. INTERIM AND FINANCIAL REPORTS.
3. Requests for payment must be submitted on Attachment 2.

**D. ACCOUNTING, RECORDS AND AUDITS**

1. The subrecipient will maintain books, records, documents, and other evidence in accordance with generally accepted accounting principles to sufficiently substantiate charges to the subagreement. The subrecipient's financial management system shall provide for the following:
  - a. Accurate, current, and complete disclosure for each IRT award in accordance with the reporting requirements of this award;

- b. Transactions must be supported by original receipts and in the case of labor by timesheets.
- c. Effective control over and accountability for all funds, property, and other assets. The subrecipient shall adequately safeguard all such assets and shall ensure that they are used solely for authorized purposes;
- d. Comparison of actual expenditures with budget amounts for each award under each category;
- e. Procedures for determining the reasonableness, allowability, and allocability of costs of this award.

2. The subrecipient shall maintain records that identify the source and application of all funds for IRT funded projects, and accounting records that are supported by documentation that at a minimum will identify, segregate, accumulate, and record all costs incurred under this award.

3. Funds for the activities conducted under this project will be submitted in Indian Rupees to the subrecipient or the bank account of the subrecipient.

4. Funds are provided only to support the costs approved in the budget between IRT and the subrecipient. Expenditures in excess of 10% of a budget line item require prior written authorization from IRT.

5. Upon provision of reasonable notice to subrecipient, IRT shall have the right to review and inspect activities conducted and data collected pursuant to this subagreement, including but not limited to, reports, data, drawings, studies, specifications, estimates, computations, supporting documentation, and similar materials prepared by or for subrecipient, whether such items are in written form, in the form of computer data, or in any other form. Such right of review and inspection shall include: (a) the right of IRT or its designees to participate in any program evaluations and mid-point review of this award scheduled during the period beginning with the effective date and ending five years after all project activities are completed and (b) the right to participate in any audit or evaluation of this award scheduled during the period beginning with the effective date and ending six years after all project activities are completed.

6. The subrecipient shall make available to IRT, independent auditors, or their authorized designees, all accounting records for examination, evaluation, and audit. Such records shall remain available for examination, evaluation, and audit until six years from the termination and/or expiration date of the award.

7. Any subrecipient expending INR 25 Lacs or more during a 12-month period may be required to have a subgrant specific audit conducted. The scope of the audit will include a review of internal controls to identify any material weaknesses or reportable conditions. Upon notification by IRT's Grants Director/ Director Operations that an audit is required the subrecipient will initiate the audit process and ensure that it is concluded in a timely fashion. Should the subrecipient receive an unfavorable audit report, IRT will confirm that the subrecipient has taken appropriate and timely corrective action. If a material weakness or other reportable condition exists, monitoring of the subrecipient will be more frequent and management actions will be taken as appropriate and may include barring the subrecipient from future consideration or suspension or termination of further funding.

**E. INTERIM AND FINAL REPORTS:**

1. The subrecipient agrees to submit to IRT interim and final progress and financial reports for this award. Interim financial reports shall be submitted quarterly, within 30 days after the end of a quarter; progress reports shall be submitted biannually, within 30 days after the end of a quarter; and the final

financial and progress reports must be submitted within 60 days after the termination or expiration of this award.

- a. To submit a financial report, use Attachment 3, "Financial Status Expenditure Report." Each financial report must reflect the comparison of current and cumulative expenses against the approved budget and the award balance. Expenditures in excess of 10% of the budget line item must include the required prior written authorization from IRT.
- b. To submit a progress report, use Attachment 4, "Project Status Report." Progress reports shall contain a description of the activities and accomplishments, long-term effects of the award, and any other relevant information pertaining to the award.
- c. The schedule for submitting reports for this award is as follows: quarterly financial reports submitted by January 31, April 30, July 31, and October 31; biannual progress reports submitted by July 31 and January 31; final reports, 60 days after subagreement's end date.
- d. IRT may delay or withhold payment in the event reports are not submitted as required.

#### F. ANTI-CORRUPTION AND BRIBERY

The UN Convention Against Corruption<sup>[1]</sup> describes bribery and corruption as "one of the biggest obstacles to development" India have specific laws that prohibit bribery. Bribery occurs when you offer, pay, seek or accept a payment, gift or favor to influence a business outcome improperly or fail to prevent bribery. Facilitation payments – which are unofficial payments made to public officials in order to secure or expedite the performance of a routine action – are also considered to be bribes. In carrying out and performing Services under this Agreement, Subrecipient agrees to comply with all applicable anti-bribery and anti-corruption laws which are applicable in India where Subrecipient has its principal place of business and where Subrecipient provides Services under this Agreement. Additionally, Subrecipient understands and agrees to comply with the Anti-Bribery and Anti-Corruption Regulations in India., which generally prohibits the offer, promise, payment or giving of anything of value either directly or indirectly to any government official for the purpose of obtaining or retaining business or any improper advantage. For purposes of this section, "government official" means any official, officer, representative, or employee of any non-. government department, agency or instrumentality (including any government-owned or controlled commercial enterprise), or any official of a public international organization or political party or candidate for political office. Subrecipient further represents that neither Subrecipient nor any of its owners, directors, employees, agents, or subrecipients will directly or indirectly offer to pay, promise to pay or give anything of value to any government official for purposes of (i) influencing any act or decision of such government official in his official capacity; (ii) inducing such government official to do or omit to do any act in violation of the lawful duty of such official; (iii) securing any improper advantage; or (iv) inducing such government official to use his influence with the government or instrumentality thereof to affect or influence any act or decision of the government or such instrumentality with respect to any activities undertaken relating to this Agreement. Additionally, in carrying out and performing services under this Agreement, Subrecipient shall not accept any gift or payment, consideration or benefit of any kind, which would or could be construed as an illegal or corrupt practice. Subrecipient *will make* reasonable efforts to comply with requests for information, including answering questionnaires and narrowly tailored audit inquiries, to enable IRT to ensure compliance with applicable anti-bribery and anti-corruption laws.

#### G. TERRORISM CERTIFICATION

Subrecipient certifies that it shall not undertake or promote any activity that may directly or indirectly support terrorists, acts of terrorism, or other violent activity. The subrecipient also certifies that it will neither engage in nor promote any activity with any party listed on The First Schedule under

---

[1] UN Convention Against Corruption: <http://www.unodc.org/unodc/en/treaties/CAC/>

The Unlawful Activities (Prevention) Act, 1967

H. TERMINATION AND SUSPENSION

1. For Cause

IRT may terminate or suspend this award at any time, in whole or part, in the event subrecipient fails to comply with any material term of this subagreement. In addition, if IRT determines that the award or subrecipient's activities in anyway may adversely affect IRT's legal or tax status or will violate applicable law, IRT retains the right, in its sole and exclusive discretion, upon notification to subrecipient to withhold, withdraw, suspend, or demand immediate return of the award and to spend such funds so as to accomplish the purposes for which the funds were initially granted as nearly as possible within IRT's sole judgment, or, if that is impracticable, to return the funds to the donor who awarded the funds.

2. For Convenience

This project may be terminated for convenience at any time, in whole or part, with the mutual agreement of both parties.

3. Suspension and Termination Procedures

- a) Upon receipt of a suspension notice, subrecipient shall take immediate action to suspend further expenditures, obligations, and activities under the project in accordance with the directives of the suspension notice.
- b) Upon receipt of a termination notice, the subrecipient shall take immediate action to minimize all expenditures and obligations financed by this award, canceling any unliquidated obligations, and within 30 days of notification repay to IRT all unexpended funds which are not obligated by a legally binding transaction applicable to this award. If it is determined that prior to this termination, funds advanced by IRT are insufficient to cover the subrecipient's obligations, the subrecipient may submit to IRT within 90 days a claim to cover such obligations.

I. REFUNDS

1. Any funds obligated but not disbursed, advanced but not expended by the subrecipient, or legally bound in any transaction in support of the project, at the expiration or termination of this project shall revert to and be refunded to IRT.
2. Subrecipient shall refund to IRT any amount of funds which IRT reasonably determines to have been expended for purposes not authorized by this subagreement or to have otherwise been expended in violation of the terms of this subagreement. Subrecipient shall also refund to IRT any amount of funds, if subrecipient's conduct of activities will adversely affect IRT's legal or tax status.

J. INDEMNIFICATION

Subrecipient agrees to indemnify and hold harmless IRT, and its employees, representatives, and agents from any and all liability, loss, damage, cost or expense, including reasonable counsel fees and expenses, paid or incurred by reason of subrecipient's breach of any of the obligations, covenants, representations or terms contained in this subagreement or by reason of any error or omission of subrecipient relating to the project or performance of this subagreement.

K. MISCELLANEOUS

---

1. Assignments and Subcontracting. Neither party may assign any rights or delegate any duties under this subagreement without the express prior written consent of the other party. Subrecipient shall not subcontract any of its duties or rights under this subagreement without the express prior written approval of IRT.
2. Integration, Modification and No Waiver. This subagreement and Attachments 1-4 attached hereto set forth the entire agreement of the parties and replace and supersede all other contracts, agreements, and understandings, written or oral, relating to the subject matter hereof. Any amendment or modification to this subagreement must be in writing and signed by both parties. No waiver of any provision of this subagreement shall be valid unless in writing and signed by the party against whom it is sought to be enforced.
3. Interest: The Subrecipient will solely utilize the interest earned on the award toward the purpose of the project specified in Section A.1.
4. Choice of Law and Dispute Resolution.
  - (a) This subagreement shall be governed by and construed under the laws of India without reference to conflict of laws principles.
  - (b) Any and all disputes, claims and/or controversies arising out of or relating to this Contract shall be resolved in accordance with the procedures specified herein, which shall be the sole and exclusive procedures for the resolution of any such dispute.
  - (c) *Negotiation.* Any Party with such a dispute shall provide written notification of the dispute to the other Party. A meeting between the Parties shall be held within [thirty (30)] days of such notice. The meeting shall be attended by the Parties' senior management with decision-making authority regarding such dispute, to use their best efforts in an attempt in good faith to negotiate a resolution of the dispute.
  - (d) *Arbitration.* If the Parties fail to settle any such dispute within sixty (60) days after receipt by one Party of the other Party's written request for such amicable settlement, then the Parties agree that any such dispute shall be settled by arbitration in accordance with the Arbitration Rules in effect on the date of this contract under the Arbitration and Conciliation Act, 1996. Any dispute or difference whatsoever arising between the parties out of or relating to the construction, meaning, scope operation or effect of this contract or the validity or the breach thereof shall be settled by arbitration in accordance with the Rules of Arbitration of the Indian Council of Arbitration and the award made in pursuance thereof shall be binding on the parties. The place of arbitration shall be Delhi, India. The language to be used in the arbitral proceedings shall be English. The arbitrator shall have no authority to award punitive damages, nor to award interest in excess of five (5) per cent, and any such interest shall be simple interest only. Judgment on the award rendered by the Arbitrator may be appealed in any court having jurisdiction thereof.
5. Relationship of Parties. This subagreement shall not constitute or create a joint venture, partnership, consortium, pooling arrangement, or any other form of business arrangement or organization. The rights and obligations of the parties are only those expressly set forth. Dear Prof. Dr. Smita Dalvi

We, Bharati Vidyapeeth College of Architecture, Pune, are pleased to invite you as a member of the **Technical Review Committee** for the **2nd National Digital Conference on Sustainability in Architecture, Planning and Technology 2023** scheduled from **28th February 2023 and 1st March 2023**.

**National Digital Conference on Sustainability in Architecture, Planning and Technology 2.0** is a two day online conference with an objective of bringing together Academicians, Researchers and Students to expand dissemination of research. The conference intends to promote exchange of ideas and create an awareness of research findings.

We have already received an overwhelming response to the call for abstracts and completed papers in all the themes listed for the conference. We believe that your expertise and academic interest for the theme **Community Engagement in Sustainable Development** will not only add value to the conference but also guide the researchers for better publication.

We would also take this opportunity to request you to **Chair the Session of the Conference** for the above mentioned subtheme.

Your early response would be highly appreciated as it shall enable us to make timely announcements. Looking forward to a positive response from your esteemed self.

Kindly confirm your willingness to be part of the **Technical Committee and Session Chair**, so we can send you the research papers for reviewing immediately.

Hoping to hear from you at the earliest.

To: sudnyamahimkar@mes.ac.in, Smita Dalvi &lt;smitadalvi@mes.ac.in&gt;

Respected Mam,

Greetings from Bharati Vidyapeeth (Deemed to be) University-College of Architecture, Pune.

We are glad to announce that we are organising a National Digital Conference on Sustainability in Architecture, Planning and Technology 2.0. It is a two-day online conference with an objective of bringing together Professionals, Academicians, Researchers and Students to expand dissemination of research. The conference intends to promote exchange of ideas and create an awareness of research findings. The conference aims to increase knowledge about Sustainability in relation with Architectural design, Settlement Planning, Traditional knowledge systems, Energy management, Environment, Ecology, Changing technologies, New and alternate construction materials. The conference is scheduled on 28 th February 2023 and 1 st March 2023.

Our institute would like to collaborate with Tekton Journal for publication of selected research papers in the journal in its next issue. The technical review committee would select papers and after the conference forward it to the Journal for further processing of publication.

We understand that the Journal reserves its rights to reject unsuitable papers sent for publication. We would like to have one member from the Tekton Editorial board to be a part of our technical review committee. Please share the details of the nominated person to be incorporated in the brochure.

We look forward to working with Tekton for Research and Publication.

Dear Prof. Murugkar,

Greetings from Tekton Journal and PiCA.

As discussed already, Tekton Journal is happy to collaborate with Bharati Vidyapeeth (Deemed to be) University-College of Architecture, Pune for your upcoming National Digital Conference on Sustainability in Architecture, Planning and Technology 2.0.

You can put me down as a member of the technical review committee to go through full papers submission and short-list for the conference and further publication in Tekton.

Looking forward to a successful conference!

## Reviews for track 2 and 3

**Smita Dalvi** <smitadalvi@mes.ac.in>  
To: "Dr. Priya Bangle" <prb@bvcoa.in>

Sat, May 20, 2023 at 9:38 PM

Dear Priya,

I am sending once again the review sheets of all the tracks. In them, it is mentioned whether the paper is not accepted OR Revisions asked for.

For track 1 and 2, we did not receive any concrete reviews from the session chairs, we have however reviewed all papers sent to us. For Track 3, I was the session chair and have reviewed all the papers. For track 4, we have gone with the decision to reject by the conference session chair Dr. Narkhede and have not reviewed those papers, the remaining have been reviewed.

Each author short-listed for revision and resubmission has been individually intimated with their respective review comments. (before 20th April). If they have not received mail from Tekton, they should check their spam folder. If still the mail is missing, the first author should write to me citing their track, paper number and title. We expect the authors to send their revised papers by mid-June.

The final call for acceptance for publication will be taken only after we receive revised papers, based on the quality of submissions.

Let me know if you need anything else from our side.

### परिपत्रक

नगर विकास विभागामार्फत राज्यातील सर्व नागरी स्थानिक स्वराज्य संस्थांमध्ये शहर सौंदर्यीकरण अभियान हाती घेण्यात येत असून राज्यातील सर्व स्थानिक स्वराज्य संस्थांमध्ये हे अभियान राबविण्यात येईल. या अभियानाच्या अंमलबजावणीसाठी पुढील मार्गदर्शक सूचना देण्यात येत आहेत.

१. शहर सौंदर्यीकरण अभियानाच्या अंमलबजावणीसाठी शहराच्या नागरी स्थानिक स्वराज्य संस्थेतर्गत खालील प्रमाणे कार्यगटाची स्थापना करण्यात यावी :-
  - i. आयुक्त/ मुख्याधिकारी
  - ii. शहर अभियंता / नगर अभियंता
  - iii. नगररचनाकार
  - iv. आरोग्य विभाग /स्वच्छता विषयक अधिकारी
  - v. निमंत्रित सदस्य- अधिकृत बांधकाम विकासक संघटना प्रतिनिधी, वास्तुविशारद, नामांकित शैक्षणिक संस्था (अभियांत्रिकी महाविद्यालय / कला महाविद्यालय), औद्योगिक संस्था व कलाकार इ.
  - vi. आयुक्त / मुख्याधिकारी यांनी आवश्यकतेनुसार प्राधिकृत केलेला प्रतिनिधी
  - vii. विशेष निमंत्रित
२. सदर अभियान आपल्या शहरामध्ये प्रभावीपणे राबविण्यासाठी आपल्या क्षेत्रातील सन्माननीय लोकप्रतिनिधींचे मार्गदर्शन घ्यावे तसेच शहर सौंदर्यीकरणाच्या कामी त्यांचा सक्रिय सहभाग राहिल असे पहावे.
३. शहर सौंदर्यीकरण अभियान राबविण्यासाठी अनुसरावयाची कार्यपध्दती :-
  - i. शहरातील अस्वच्छ जागांची निश्चिती करण्यात यावी. या जागांची स्वच्छता करणे व त्यांचे सौंदर्यीकरण तसेच सुशोभिकरण हाती घेणे.
  - ii. शहरातील मध्यवर्ती चौकाची स्वच्छता करणे, चौकाचे सुशोभिकरण करणे यावर जागा उपलब्धतेनुसार भिती चित्रे, कारंजे, शिल्प उभारणे व सामाजिक संदेश देणारे व जनजागृती करणारे चित्र रेखाटणे.
  - iii. शहरात सुयोग्य ठिकाणी वाहतूक बेट (ट्रॅफिक आयलंड) सुशोभिकरण व स्वच्छता करणे.

- iv. शहरातील रस्ता दुभाजकांची स्वच्छता करणे, दुभाजकांवर शोभिवंत वृक्ष व फुल झाडांची लागवड करणे तसेच दुभाजकांमध्ये शिल्प उभारणे.
  - v. शहरातील प्रमुख व मध्यवर्ती भागातील रस्त्यांच्या दुतर्फा भिंतींवर विविध विषयांबद्दलच्या जनजागृती साठी चित्रे रेखाटणे.
  - vi. शहरातील प्रमुख इमारती, शाळा, महाविद्यालये, हेरिटेज इमारती यांच्याबाहेर समर्पक भिंती चित्रे रेखाटणे.
