Dear ma'am,

As a formal update regarding the art competition (The Water we Want 2022 contest) related to the lakes of Panvel. As a part of the COA project, we invited the school students of MES in the month of May for a workshop along with a lake awareness walk to be held. The Living Waters Museum head Sara Ahmed, was interested in putting up a presentation as well. However, all the schools had final examinations and only 8 students were interested in participating and hence, the workshop couldn't be held. But, those students were able to submit their art work by discussions over the phone.

Happy to inform that one of the 8 students, Nisha Rode's entry was shortlisted among the 6 entries from India. Her letter and E-certificate is enclosed herewith. The student has been informed. The participation certificate for the remaining students need to be prepared from the school (or college), and will be signed by the Living Waters Museum. Let me know what you would suggest, if I should get it from the school.

Sharing the folder of the student entries- their artwork and writeup:

Dear Bhagyasshree,

Can you please reshare the report in the format you had committed in the initial timeline? We'll need it to vet against the original proposal, so it'd be great if you could stick to the same format. Secondly, please make sure you share at least the view access with us of the drive folders (no access to the Art competition entries).

Looking forward to your revised report!
