ERP Document

6.2.3 Implementation of E governance in area of operations:

Pillai college has provided inhouse software to its institutions which is developed under PCST (Pillai Centre for Software Technology). It is used in e-governance for different areas of operations.

1. Administration:

For Administration support and record activity Pillai Centre for Software Technology in 2015-16 developed the software **EduRight** for storing, accessing and retrieving every Student Information collected during admission, keeping a record of fees payment and his progress throughout their Course and even after they pass out.

The Library has a Web Application system ' Koha' that allows patrons to view all the transactions, such as number of issued books, due date, fine and their issue history etc..A patron can also use this application to renew and reserve books online, search library catalog, suggest new books and access e-resources.

All this helps to bring transparency and ease of working for faculty as well as students.

2. Finance and Accounts:

For finance and accounts the EduRight software developed In house to track Fees payment of every student. For Staff salary calculations and Accounts we have purchased Tally ERP software for generating Form 16 and maintaining accounts in 2007-08.

3. Student Admission and Support:

Students are most important stakeholders to PiCA and for their ease and convenience institute has developed In house software's for different activities involving them such as

- a) **PiCA Student portal**- Every student is allotted a MES email id and password at the time of admission which is used to access this portal. This portal is developed to fill exam forms for 1st to 5th & 7th To 9th semester. This portal also has a link to pay fees online like tuition, study tour, etc.

4. Examination-

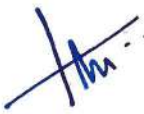

To easily monitor and functioning of Exam activities we have developed In-house Exam Management software in 2013-14 which is used for preparation of Final results, entering marks (theory examination, external jury, internal examination), preparing marksheets. This is also useful in tracking progress of each student from the time he is enrolled into PiCA.
